

CONCRETE PIPE MACHINERY

Concrete Machinery for pipes, manholes,
culverts and barriers.

PAGE 2

MODEL CPM 150 - CONCRETE PIPE MAKING MACHINE
Ø150 - Ø600mm

PAGE 3

MODEL CPM 300 - CONCRETE PIPE MAKING MACHINE
Ø300 - Ø1200mm

PAGE 4

MODEL CPM 800 - CONCRETE PIPE AND CULVERT MAKING MACHINE
Ø800 - Ø3600mm

PAGE 5

MODEL CMB 120 - FULL AUTOMATIC MANHOLE BASE MACHINE
Ø1000 - Ø1200mm, 800x800mm, 1400x1400mm

PAGE 6

MODEL CMB 150 - MANHOLE BASE MACHINE
Ø1000 - Ø1500mm, 800x800mm, 1400x1400mm

PAGE 7

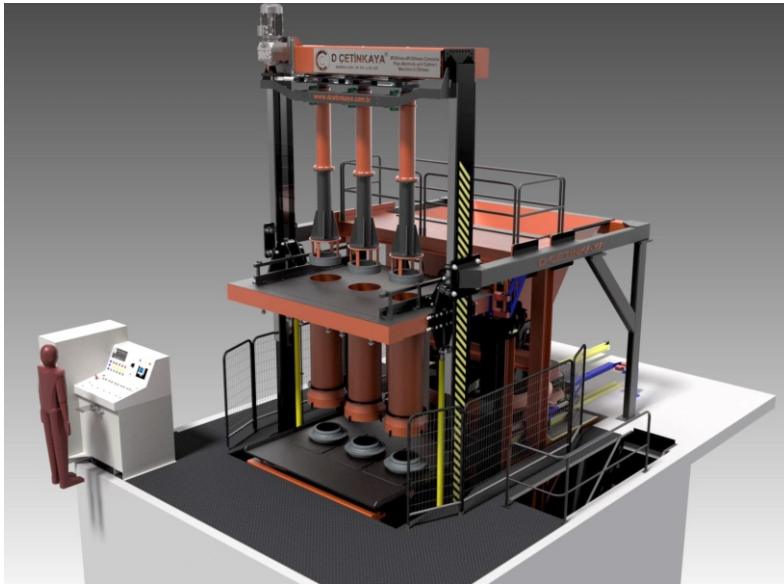

MODEL CMR 120 - AUTOMATIC MANHOLE MAKING MACHINE
Ø620 - Ø1200mm, 800x800mm

PAGE 8

MODEL CMR 150 - MANHOLE MAKING MACHINE
Ø620 - Ø1500mm, 800x800mm

PAGE 9

MODEL CNJ 350 - NEW JERSEY BARRIER MAKING MACHINE
1500 - 3500mm

Model CPM 150

CPM150

Concrete Pipe Making Machine

CPM 150 is a versatile concrete pipe making machine designed to produce muffled and unmuffled pipes between 150-600mm diameter and 500-2000mm length. Single, double and triple mould combinations are available as per the size and the capacity.

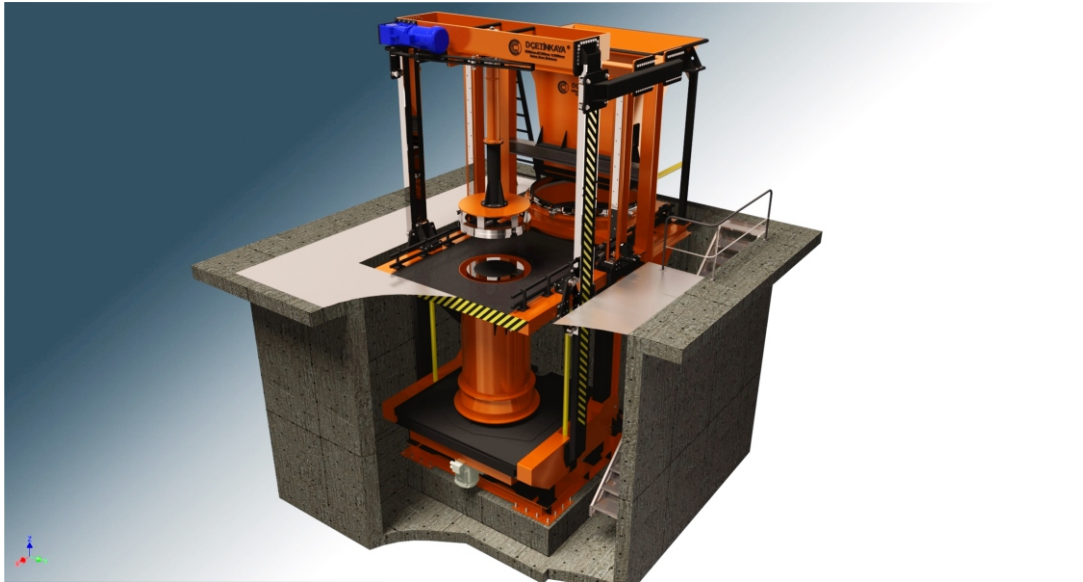

CPM 150 is also designed to produce 800x800mm square manholes and Ø620mm round manholes.

Technical Specifications

Diameter	Ø150mm - Ø600mm
Length	500mm - 2000mm
Integral Rubber Seal	Optional
Products	Pipes and manholes

Standard Features

Vibrator	Oil circulating (SKF or FAG bearing)
Hydraulic Unit	Bosch Rexroth
Control Panel	Schneider
Security	Sensor protected
Transport	Forklift or Trolley

Model CPM 300

CPM300

Concrete Pipe Making Machine

CPM 300 is a versatile concrete pipe making machine designed to produce muffled and unmuffled pipes between 300-1200mm diameter and 500-2500mm length. Single, double and triple mould combinations are available as per the size and the capacity.

CPM 300 is also designed to produce octagonal pipes, square pipes, box culverts, manhole chambers, manhole risers and manhole cones.

Technical Specifications

Diameter	Ø300mm - Ø1200mm
Length	500mm - 2500mm
Integral Rubber Seal	Optional
Products	Pipes, culverts and manholes

Standard Features

Vibrator	Oil circulating (SKF or FAG bearing)
Hydraulic Unit	Bosch Rexroth
Control Panel	Schneider
Security	Sensor protected
Transport	Forklift or Trolley

Model CPM 800

CPM800

Concrete Pipe and Culvert Making Machine

CPM 800 is a versatile Concrete Pipe and Culvert Making Machine designed to produce muffled and unmuffled pipes between 800-3600mm diameter and 1500-3500mm length.

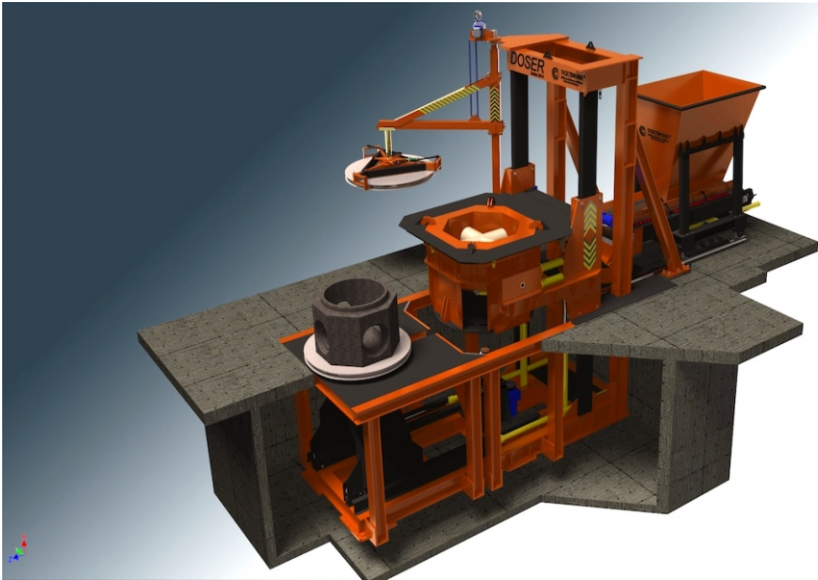

CPM 800 is also designed to produce octogon pipes, square pipes, box culverts, manhole chambers, manhole risers and manhole cones.

Technical Specifications

Diameter	Ø800mm - Ø3600mm
Length	1500mm - 3500mm
Integral Rubber Seal	Optional
Products	Pipes, culverts and manholes

Standard Features

Vibrator	Oil circulating (SKF or FAG bearing)
Hydraulic Unit	Bosch Rexroth
Control Panel	Schneider
Security	Sensor protected
Transport	Forklift or Trolley

Model CMB 120

DOSEER

Full Automatic Manhole Base Making Machine

CMB 120 (Doser Series) is a full automatic manhole base making machine designed to produce manhole bases with different sizes and shapes.

CMB 120 is developed as the result of the long term R&D studies.

Technical Specifications

Round Base	Ø1000mm - Ø1200mm
Square Base	800x800mm, 1400x1400mm
Height	600mm - 1600mm
Steaming	Optional
Products	Manhole Bases

Standard Features

Vibrator	Oil circulating (SKF or FAG bearing)
Hydraulic Unit	Bosch Rexroth
Control Panel	Industrial PLC
Security	Sensor and PLC protected
Transport	Forklift
Pallet	Special designed

Model CMB 150

CMB150

Manhole Base Making Machine

CMB 150 is a versatile manhole base making machine designed to produce manhole bases and covers with different size and dimensions.

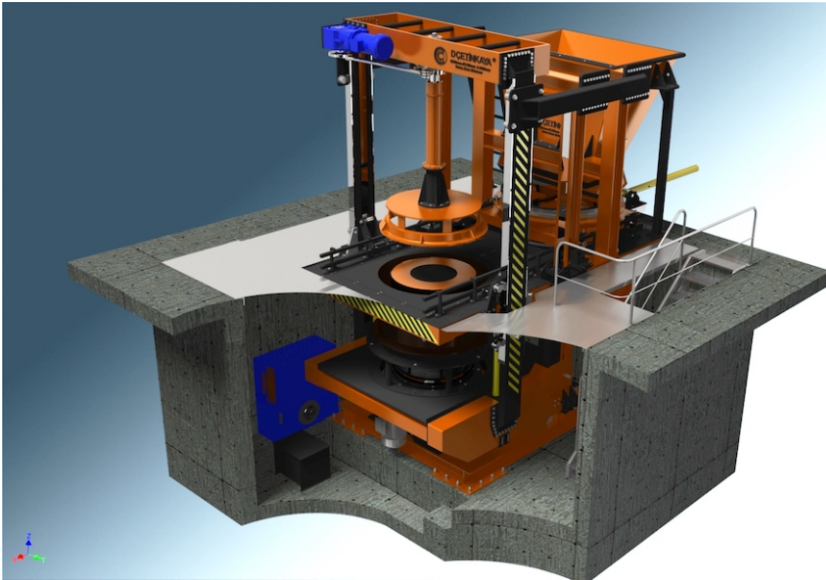

CMB 150 is also available to produce New Jersey barriers and U channel parts.

Technical Specifications

Round Base	Ø1000mm - Ø1500mm
Square Base	800x800mm, 1400x1400mm
Height	500mm - 1600mm
Steaming	Optional
Products	Manhole bases and covers, New Jersey barriers and U channel parts.

Standard Features

Vibrator	Oil circulating (SKF or FAG bearing)
Hydraulic Unit	Bosch Rexroth
Control Panel	Schneider
Security	Sensor protected
Transport	Crane
Locking	Mould locking mechanism

Model CMR 120

CMR120

Automatic Manhole Making Machine

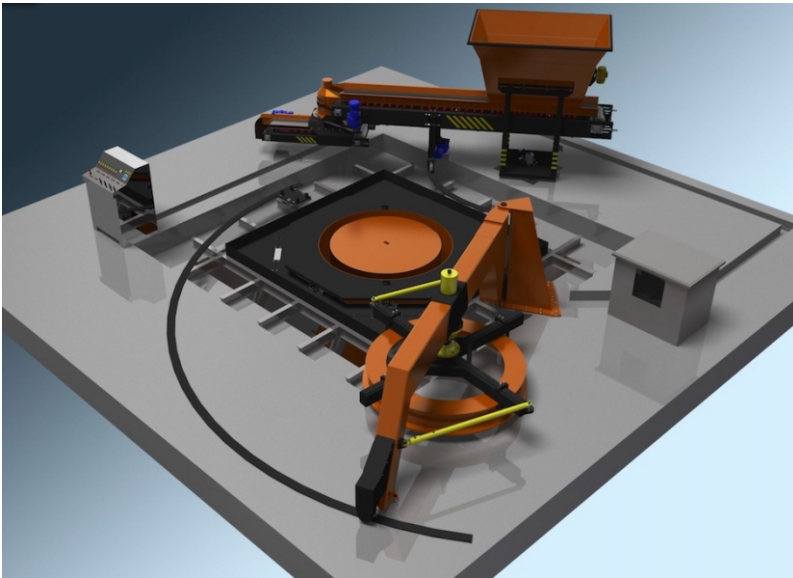

CMR 120 is an automatic manhole making machine designed to produce round and square manhole chambers, risers and cones between 620-1200mm diameter and 250-600 mm height.

Technical Specifications

Round Manhole	Ø620mm - Ø1200mm
Square Manhole	800x800mm
Height	250mm - 1000mm
Steaming	Optional
Products	Manhole chambers, risers and cones

Standard Features

Vibrator	Oil circulating (SKF or FAG bearing)
Hydraulic Unit	Bosch Rexroth
Control Panel	Schneider
Security	Sensor protected
Transport	Forklift

Model CMR 150

CMR150

Manhole Making Machine

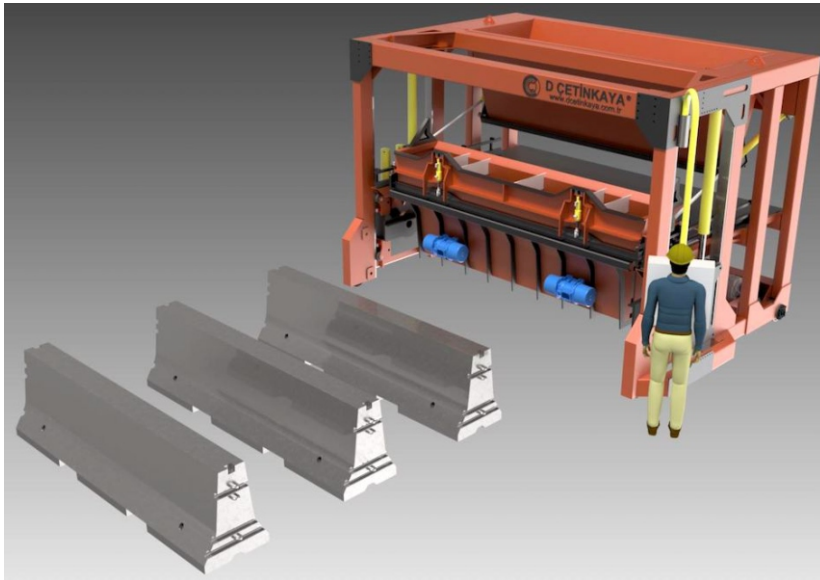

CMR 150 is a manhole making machine designed to produce round and square manhole chambers, risers and cones between 620-1500mm diameter and 250-1000 mm height.

Technical Specifications

Round Manhole	Ø620mm - Ø1500mm
Square Manhole	800x800mm
Height	250mm - 1000mm
Steaming	Optional
Products	Manhole chambers, risers and cones

Standard Features

Vibrator	Oil circulating (SKF or FAG bearing)
Hydraulic Unit	Bosch Rexroth
Control Panel	Schneider
Security	Sensor protected
Transport	Crane

Model CNJ 350

CNJ350

New Jersey Barrier Making Machine

CNJ 350 is an axial controlled automatic concrete machine designed to produce New Jersey barrier with 1500-3500mm size and 800-1200mm height.

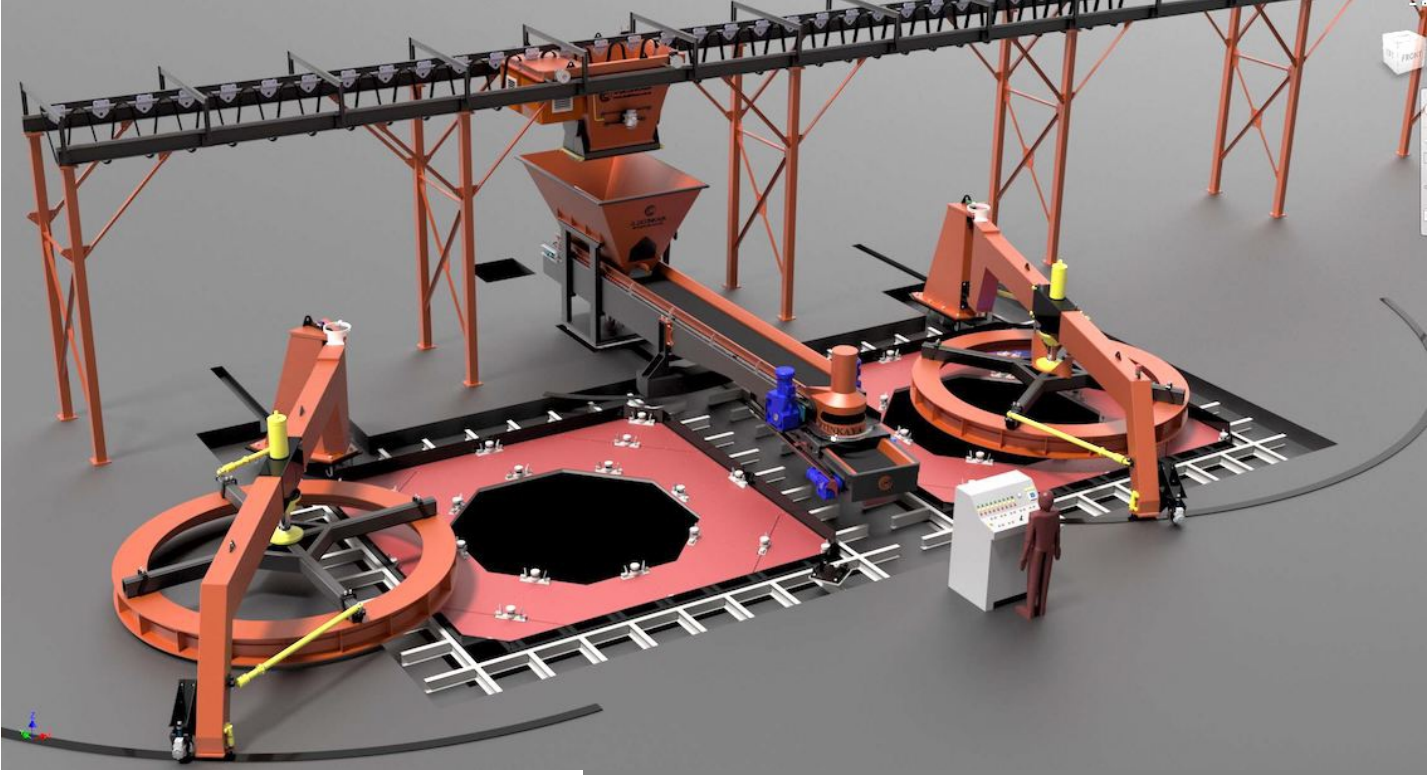

CNJ 350 is also available to produce manhole covers, U channels and road borders.

Technical Specifications

Size	1500mm - 3500mm
Height	800mm - 1200mm
Steaming	Optional
Products	Manhole covers, New Jersey barriers, U channels and road borders

Standard Features

Vibrator	Oil circulating (SKF or FAG bearing)
Hydraulic Unit	Bosch Rexroth
Control Panel	Schneider
Security	Sensor protected
Transport	Crane
